INTRO

“Borgo delle Tovaglie’s textiles are produced in our sewing workshop in Bologna, since 1996.”

We created this workbook as a working tool for a better understanding of our collections. In each section, dedicated to various thematic areas, you can find the different lines of Borgo Delle Tovaglie with specifications of materials, sizes and colours combinations available. Our production

handcrafted in Italy also allows us to provide you with an unrivaled tailor-made customization service, to meet the needs of specific projects. In addition to the basic collections presented here, during the year Borgo delle Tovaglie presents new proposals illustrated in our special seasonal Lookbooks.

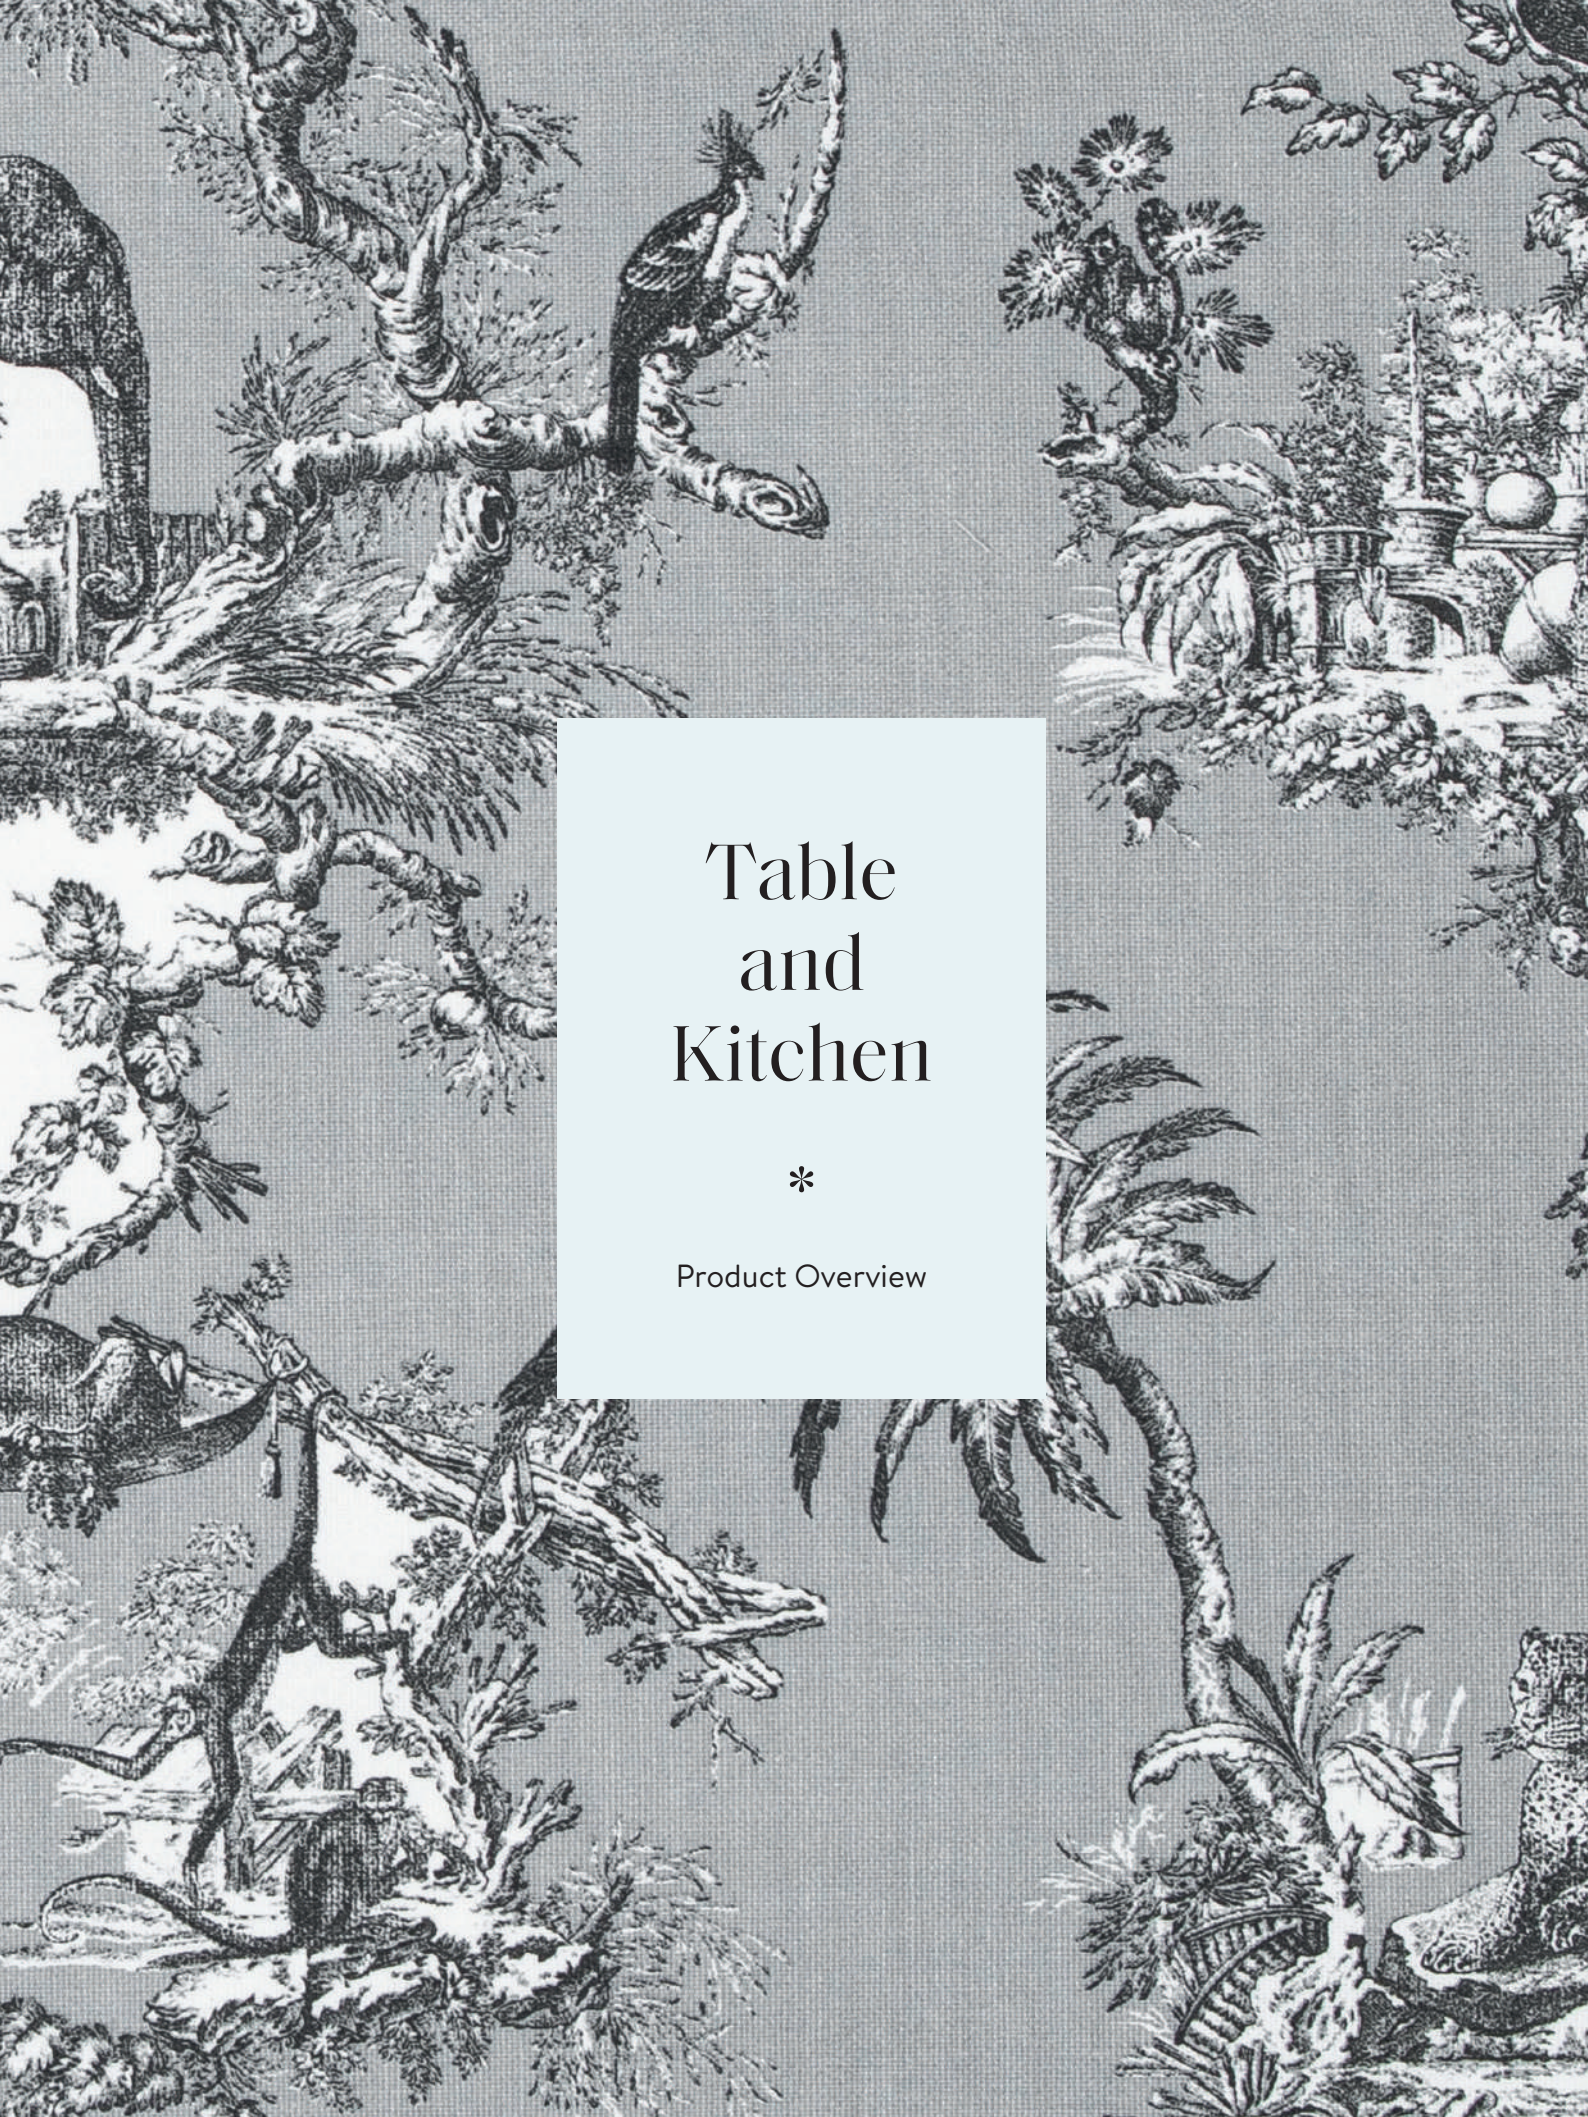

Table and Kitchen

Product Overview

Handcrafted in Italy

We have been producing Borgo delle Tovaglie in Bologna since 1996, at our tailor's shop.

All Borgo delle Tovaglie tablecloths are handmade, cut one by one and crafted in our Atelier in Bologna. For this reason all our tablecloths can be personalized with a very fast service, thanks to the experience of our skilled craftsmen. The different collections, characterized by a variety of finishes, fabrics and colors, allow you to create unusual combinations to better adapt to your style. Each season we develop new colors and details, to offer you new stimulating ideas. Borgo delle Tovaglie production has taken place in Italy

since 1996, at our tailor's shop and each process is meticulously followed according to high standards of tailoring and care, and to do this still many processes are completely manual. The tablecloths are cut one by one to ensure optimal quality control of the fabrics and to be able to customize the measures according to the needs of our customers. In the same way, the ruffles of the tablecloths and of our precious Gitane line and the embroideries of Amalfi, Erica, Lea, Firenze and Eva collections are the result of long hours of work

of skilled and patient hands, who masterfully pull the very fine threads of our linens to create a unique and unrepeatable product. This extreme flexibility is the basis of our unrivaled tailor-made service, which allows us to propose customisation in color and size, providing the desired width and length. These tablecloths can also be realized without anti stain treatment on request, to satisfy every need of our customers. In this way we are able to make any size of tablecloth or sheets thanks to the experience of our seamstresses.

Anti stain linen tablecloths

“Our stain-resistant tablecloths are our flagship creation, combining the beauty of linen and handcrafted finishes with the demands of everyday life.”

The history of our stain-resistant table linens goes back almost 30 years, thanks to the dedication and research of the founder of Borgo Delle Tovaglie, who was looking for a solution that would combine the practicality of the plastic tablecloths commonly in use with the desire to have tablecloths that did not sacrifice elegance. The search was not only for a waterproof solution, but for a real stain-resistant, softer and more pleasant-looking capable of resisting even the most common stains at the table, such as those from wine, oil, coffee and tomatoes.

The formulas were tested for more than three years until they gave the desired results: even the toughest stains float on our fabrics and can be cleaned with a simple wipe with a damp sponge. At the same time, the appearance of the fabrics remains beautiful and elegant, while clearly showing the unmistakable quality of our linens and cottons.

We have come a long way since then and today we count the largest selection of fabrics, exclusive colors and stain-resistant patterns.

This, combined with as many edges and finishes and especially our remarkable made-to-measure tailoring service, makes us a leader in the tablecloth industry in terms of choice, available sizes and product quality.

Our tablecloths are environmentally friendly because thanks to the stain-resistant treatment based on resins that are free of pollutants such as fat and formaldehyde, they are resistant to any kind of stain, significantly reducing the use of detergents and water consumption in our daily lives. For a wide range of

our tablecloths, we can offer customizations with or without stain-resistant treatment upon request.

“Take good care of them, they will pay you back for life.”

The stain-resistant tablecloth in addition to being cleaned daily with a damp sponge and a little neutral soap, can be machine washed occasionally with the program for delicates, and can be ironed with hot iron and steam on the back of the fabric.

BAUHAUS

Refined linen tablecloths
with linen border.

Since 1996 the Bauhaus line has been our evergreen, combining the tailoring of an elegant tablecloth with the modernity of a fresh, eclectic style thanks to the high border made in contrasting colors. In addition to the many color combinations offered below, it is possible to combine all the solids and patterned fabrics available in our color chart, with our neutral borders in Ivory,

Sand and Mastic colors, resulting in an incredible variety of products that continually evolve over the seasons.

The Bauhaus tablecloth can be made in natural fabric or with a stain-resistant fabric center part. This product, whose name is inspired by the essential lines of the Bauhaus style, is made in our tailor's shop in Bologna and can be customized in color and size upon request.

SFOGLIATELLA

Bringing Italian tradition
to the table.

From its name to its sinuous style, Sfogliatella is a collection dedicated to the famous Neapolitan pastry, combining fabrics of different weights and tailored finishes to create a collection of elegance and refinement. With a quadruple ethereal linen gauze border and an elegant em-

broidered drawstring stitch on the four flounces, it is the result of careful craftsmanship with long meticulous processing in our tailor's shop in Bologna and is available either in natural line or with our special stain-resistant resin treatment.

VENEZIA

Refined embroidery with
a classic style.

The wonderful tradition of embroidery is part of the artistic heritage of our country and with the Venezia collection we have revisited it in a contemporary key. The laurel wreath that adorned the heads of emperors become an iconic element, hand carved on the edges of our tablecloths to accompany the line of the table, with a

high-impact effect. The result is an elegant collection in pure linen also available with anti-stain treatment, finished on the profile with a high linen border with precious contrasting colored embroidery wreath and can be made either with our special stain-resistant resin treatment or in water-washable natural fabric.

NASTRI

Sweetness of a place where time
passes

“Ribbons woven into the hair of an antique painting, a delicate trellis of creepers in a winter garden. This inspired my imagination in designing the Ribbons line, and this is how I imagine these elegant, poetry-filled tablecloths set.

The sweetness of a place where time passes slowly and our senses awaken to notice details and make them part of our lives.”

EDEN

Setting of tender blossoms.

The lush, fruit-laden branches in a garden of eden, a delicate setting of tender blooms.

This is the tale told in this line that takes up an ancient tradition, in which embroidery tells of the life and dreams of those who perform it.

Here history meets our everyday and marries ancient symbols, with color combinations rich in creativity and eclecticism, for a table that does not want to go unnoticed.

Linen maintenance

Linen is a fabric deriving from the processing of a completely natural fiber grown on a large scale in northern Europe.

Our linen is subjected to numerous washing, dyeing and drying processes, which give it that particular softly wrinkled and natural appearance. To maintain its appearance for as long as possible, we recommend washing it by hand or in a washing machine at 40° C with normal laundry detergent and very little fabric softener. In case of difficult stains you can pretreat with Marseille soap or a delicate stain remover suitable for colored garments. We advise you to dry

your linen in the air, but if you wish to use a tumble dryer, we suggest that you take it out as soon as the drying cycle ends so as not to iron the unpleasant creases that would form if you leave the hot items piled up in the washing machine. However, linen can always be ironed even with very hot and steam iron, in this case, for an optimal result we advise you to iron it wet. The same type of maintenance is recommended for our pure cotton and linen terry towels.

1. Anti stain linen runner Filo.
TDJ Talco - Rapa.
2. Anti stain linen tablemat Filo.
Avorio - Mastice.

It is first of all important to take care of your Borgo delle Tovaglie tablecloths and not to leave stains on the tablecloth for a long time. We therefore advise you to always clean a stain immediately with a simple damp cloth, and to always freshen your tablecloth, with a simple sponge pass every time you clear. If you occasionally wish to wash the tablecloth, do it only with warm water max 40° C

and by hand or with a silk cycle. Use detergent for silk or wool and do not spin. Dry in the air and iron only on the reverse side the anti stain fabric, with very hot iron. The linen edges can be ironed on both sides, we advise you to iron them wet. If you take good care of it, Borgo delle Tovaglie tablecloths ... "will literally change your life ...", as one of our clients said almost 20 years ago!

A separate chapter instead deserves the care of our famous and precious linen with anti stain treatment.

Tailor-made

Linen tablecloths, bed sheets, duvet covers, bedspreads, table runners, placemats: all of our products can be customized to address your need.

Choosing the right size for your tablecloth is easy if you have the good tips.

Let us guide you with some useful suggestions

THE SIZE

The correct size of the tablecloth is obtained by adding the drop to each side table size.

Check our drawings below and follow the directions to calculate your size.

TABLECLOTH UNDERLAYS

For formal occasions or elegant dinners, you may want to add a long tablecloth underlay to the tablecloth, which will cover the

table legs and give a more sophisticated look to your table setting.

TABLE SPILL

Tablecloth spill refers to that part of the fabric that comes down from the table top on all sides

The choice of fall, and thus the size of the finished tablecloth, complete with borders, depends on several considerations, such as the shape and size of the table, and the occasion for which you are setting the table.

Follow our directions below to avoid mistakes, and if you are still in doubt, or if you cannot find the right size for your tablecloth, please contact our customer service watsup 0039 4890731

Do you need customized solutions? We will be pleased to customize our products for your specific needs.
